BILLING CODE 4162-20-P

DEPARTMENT OF THE INTERIOR**Fish and Wildlife Service****Notice of Availability of Draft Conservation Agreement for the Topeka Shiner in the Mill Creek Watershed District in Kansas for Review and Comment**

AGENCY: U.S. Fish and Wildlife Service, Interior.

ACTION: Notice of document availability.

SUMMARY: The Fish and Wildlife Service (Service) announces the availability for public review of a Draft Conservation Agreement for the Topeka shiner (*Notropis topeka*) in the Mill Creek Watershed District in Kansas. This species is designated a candidate species, indicating that the Service has on file substantial information on biological vulnerability and threats to support a proposal to list it as an endangered or threatened species. The Conservation Agreement was developed jointly by the Service, the Kansas Department of Wildlife and Parks, and the Mill Creek Joint Watershed District No. 85. The agreement focuses on reducing and eliminating some of the more significant threats to the species resulting from flood control measures proposed for implementation within the basin, maintaining core populations of the species necessary for long-term viability, while still allowing the District to achieve an effective level of flood control to meet its needs. The Service solicits review and comment from the public on this draft document.

DATES: Comments on the Draft Conservation Agreement must be received on or before July 7, 1997 to be considered by the Service during preparation of the final Conservation Agreement and prior to the Service's determination whether it will be a signatory party to the agreement.

ADDRESSES: Persons wishing to review the Draft Conservation Agreement may obtain a copy by contacting the Field Supervisor, U.S. Fish and Wildlife Service, 315 Houston, Suite E, Manhattan, Kansas 66502. Written comments and materials regarding the Draft Conservation Agreement also should be directed to the same address. Comments and materials received will
